Questions and comments from members of the public

A resident asked whether the Parish Council knew which farmer owned the field backing onto his property, as he wished to replace the broken wire fence with a more attractive boundary. The Clerk confirmed that, if the resident emailed her, she would provide the ownership information requested.

A resident expressed concern that, should the filing cabinets be relocated to another room within the Village Hall, historical records and photographs currently stored in the IT room might be lost or overlooked. She also requested that some of the historic photographs be displayed in the Millennium Hall, commenting that the village should do more to preserve and showcase its history for the benefit of existing residents and newcomers. Members reassured the resident that the historical records and photographs would be retained and agreed to explore the possibility of displaying some of the photographs within the Millennium Hall.

A resident reported that he had straightened and secured the post in Water Street ready for the Speed Indicator Device (SID) to be fitted.

A resident asked whether the Ranger could tidy the weeds along the edge of the pavement beyond the 30mph speed limit sign on the eastern side of the village. The request will be added to the Ranger's schedule.

Reports from Somerset Councillors (limited to 10 minutes in total)

Cllr Roundell-Greene is recovering well following her two strokes and two heart attacks, as well as the recent loss of her husband. It was confirmed that she intends to stand again at the next election.

The Somerset Councillor reported that the consultation on the Local Plan, including the map showing the proposed direction of growth for towns and villages, remains active. The Somerset Councillor advised that, once the Local Plan has been finalised, it may become more difficult for local planning applications to be referred to the Planning Committee.

Flood Improvement Grant: The Somerset Councillor reported that Somerset Council has received £50 million in funding from the Government (DEFRA) for flood improvement measures. Applications must be submitted by September for consideration. The grant funding is intended to support projects addressing flash flooding, river flooding, and surface water/rain flooding.
