Somerset Council is introducing new safety measures on the A361 Frome Bypass, which has seen five fatalities in the past five years, four of these between 2023 and 2024. Work starting from 11 May includes resurfacing, a reduced speed limit of 50mph, and central road hatching, carried out over three nights with a full overnight road closure. AI cameras installed in autumn 2024 recorded over 4,500 offences in their first four months, including 74 drivers exceeding 80mph.

The works follow extensive campaigning by residents, local councillors including Lib Dem councillor Adam Boyden, and Lib Dem MP Anna Sabine. Sabine made road safety on the bypass her very first priority upon being elected in 2024, tabling a question to the Transport Secretary in her first week in office.
